Community visioning is a process that gives stakeholders the opportunity to express ideas about the future of their community.

Our goals are to begin to learn about our individual and collective experiences, envision what would the international school ecosystem look and feel without racism and discrimination, and to explore ways to end racism and discrimination.
Vocabulary

- Racism: The marginalization and/or oppression of Black, Indigenous, and People of Color based on a socially constructed racial hierarchy that privileges white people.

- Discrimination: The denial of justice, resources and fair treatment of individuals and groups (often based on social identity)

- Ecosystem: A system or group or community that interact with each other in a specific environment
Task

- In your breakout:
  - Introduce yourselves
  - Question: Does your community experience racism and discrimination? How? Add on Padlet (15 minutes)
Closing

- Reflections

- Commitment to Action:
